Our story is simple. Embrace the DNA of a design classic, then skilfully and respectfully remaster it to meet the demands of modern day life.

---

Mini Remastered by David Brown Automotive is a handcrafted masterpiece with all the style, technology and engineering excellence that defines our ethos, whilst retaining the spirit and personality of the original.

ORIGINAL REMASTERED

A woman with short brown hair, wearing a tan leather jacket, denim shorts, and black high-heeled sandals, is sitting on the front fender of a teal-colored Mini Cooper. The car is parked on a paved street in front of a red brick wall. Two multi-paned windows are visible on the wall, one on the left and one on the right. The scene is brightly lit, casting shadows on the ground and the wall.

# LABOUR OF LOVE

Mini Remastered by David Brown Automotive  
has been painstakingly handcrafted to create  
a contemporary design classic.

## CRAFTSMANSHIP

Inspired by Sir Alec Issigonis' classic icon, our experienced design and engineering teams work meticulously to remaster the vision to meet the demands of modern life.

With mass-production comes compromise. By contrast, our low-volume, handcrafted Mini Remastered is built to the highest standards using a combination of traditional coachbuilding techniques and state-of-the-art manufacturing processes.

Our engineers scrutinise all aspects of the car from the ground up. The result is a completely new structure and exterior body shell. De-seamed, strengthened and sound-proofed throughout, Mini Remastered not only looks great, but has improved structural integrity and comfort.

A hand-applied paint process that lasts for four weeks ensures that every car is not only flawlessly finished but protected for a lifetime.
